

Innovative Technology Award, sponsored by Fednav Group

This award is split into two categories;
Marine and Cargo Handling.

Shortlist (Marine)

Becker Marine Systems, Germany
OMC International, Australia
Wessels/SkySails, Germany

Winner – OMC International

Judges chose OMC International's new OMC iHeave, which offers the bulk shipping industry a ship motion measurement instrument to increase the safety of lives at sea.

Capt Jonathon Pearce receive the trophy from Fednav's Suzanne Bleau-Myrand

Shortlist (Cargo Handling)

iSAM, Germany
Liebherr, Austria
Nectar, United Kingdom
Telestack, United Kingdom
ThyssenKrupp Fordertechnik, Germany

Winner – Liebherr

Judges recognised Liebherr's major step to prevent adverse outcomes of noise exposure. The LHM Noise-Control Initiative was first implemented in 2011 and will be rolled out to Liebherr's entire mobile harbour crane range.

Fednav's Suzanne Bleau-Myrand presents the trophy to Darko Pavletic and Walter Mietschnig.
